ABOUT US 

Services

DESIGN

Our Design team starts by understanding your requirement and provides Design & Development support.

Product Development

The product development process is a team effort by our development professionals. We ensure the prototype is reviewed and revised until a sample is approved.

Manufacture

Production of Ready-Made Garments are executed at our enlisted specialized garment factories. Our streamlined supply chain is organized & managed at every stage by us.

QUALITY ASSURANCE

Our Quality Inspection team will assure Total Quality Management by providing close monitoring, random inspection along with on demand lab test.

On-time Delivery

Our team will always facilitate & maintain on time delivery of your products with the desired packaging & shipping mode along with correct products quantity assortment.

Benefits

OF WORKING WITH NIMBUS

HOW WE WORK** 

Collaborative PRODUCT DEVELOPMENT

- ▶ We prioritize on saving time, saving costs and reducing waste.
- ▶ We provide inhouse 3D designs and patterns.
- ▶ We provide digital samples for instant feedback.
- ▶ We make accurate pricing discussions.

Sustainability & Ethical Sourcing

“WE BELIEVE SUSTAINABILITY IS THE FUTURE AND WE GIVE IT UTMOST IMPORTANCE WHEN SOURCING.”

We make sure that the factories and suppliers we work with have a robust sustainability agenda that addresses both social and environmental imperatives. We go through each partner’s sustainable certification history to ensure the certificates are up to date.

A purple fabric is draped over a white circular object, possibly a lid or a base, on a purple background with a wavy pattern. The fabric is gathered and folded, creating a sense of depth and texture. The overall composition is clean and modern.
